PROJECTS

RescuLink - An AI - Powered Emergency Incident Reporting System

UI/UX Developer & Research Assitant | Flutter, PostgreSQl & Figma

- Designed and developed the intuitive user interface for a citizen-facing emergency reporting application using Figma and Flutter, integrating seamless real-time GPS tracking.
- Conducted stakeholder research and integrated structured reporting workflows with a PostgreSQL database to support AI-driven triage and rapid responder dispatch.

FixIt - PHINMA Upang Campus Maintenance System

Backend Developer | Flutter & Figma

- Built the mobile application for an **LLM-powered** campus reporting platform, delivering a highly responsive UI/UX for submitting and tracking maintenance tickets.
- Streamlined administrative workflows and reduced manual triage time by deploying interactive, real-time status dashboards for campus facility managers.

CupfeExpresso

UI/UX Developer | Kotlin & Figma

- Conceptualized and built an innovative digital ecosystem and marketplace for connecting coffee enthusiasts and modern cafes.
- Designed a high-efficiency ordering and reservation system inspired by quick-service estasblishments, complete with smart QR integration for a queue-free experience.

EDUCATION

Bachelor of Science in Information Technology — Dagupan City

PHINMA-University Of Pangasinan — 2023 - Present

SKILLS

- **Technical Skills:** Excel, Troubleshooting.
- **Languages:** Dart, HTML/CSS
- **Framework:** Flutter
- **Databases & Backend:** PostgreSQL
- **Tools & Technologies:** Figma, Canva, Blender
- **Core Work Skills:** Analytical Thinking, Technical Communication, Complex Problem Solving.

CERTIFICATIONS

- **AWS Fundamentals,** Zuit, - Coding Bootcamp (2026)
- **Design Thinking Workshop for Sophomores,** Certificate of Participation (2025)
